STEPPING STONES
day nurseries
Parent's / Carer's Welcome Pack

Dear Parent / Carer,

Below is a selection of Key Policies from our Little Stepping Stones Day Nurseries Policy & Procedures, which is available for you to read in its entirety at our Nursery.

Included Policies:

- Early Learning Opportunities Statement
- Safeguarding Children
- Key Person
- Inclusion & Equality
- Settling In
- Parents & Carers As Partners
- Safe Care & Practice
- Arrivals & Departures
- Late Collection & Non-Collection
- Nutrition & Meal Times
- Sickness & Illness
- Medication
- Health & Safety Statement
- Dealing with Discriminatory Behaviour
- Promoting Positive Behaviour
- Complaints & Compliments

If you have any questions or would like any more information on any of the policies below, then please feel free to speak to our Nursery Manager.

Early Learning Opportunities Statement

We set out to support all children attending the nursery to attain their maximum potential within their individual capabilities. A personalised record of each child's development is maintained, showing their abilities, progress, interests and areas needing further staff or parental assistance. We acknowledge that children learn in different ways and at different rates and plan for this accordingly.

The staff are very aware of the importance of a positive play environment for the child, so they may develop good social skills and an appreciation of all aspects of this country's multi-cultural society. Planning of the learning experience by the staff is further designed to ensure, as far as practical, equality of opportunity between all children and that it celebrates diversity.

We promote the relevant frameworks and curriculum set by the Department for Education to support and enhance children's learning and development holistically through play-based activities. We view all aspects of learning and development equally and ensure a flexible approach is maintained, which responds quickly to children's learning and developmental needs. We develop tailor-made activities based on observations, which inform future planning and draw on children's needs and interests. This is promoted through a balance of adult-led and child-initiated opportunities both indoors and outdoors.

We acknowledge parents as primary educators and encourage parental involvement as outlined in our Parents and Carers as Partners policy. We build strong home links in order to enhance and extend children's learning both within the nursery environment and in the child's home.

Safeguarding Children Policy | EYFS 3

Safeguarding and promoting the welfare of children, for the sake of this policy is defined¹ as:

- Protecting children from maltreatment
- Preventing the impairment of children's health or development
- Ensuring that children are growing up in circumstances consistent with the provision of safe and effective care
- Taking action to enable all children to have the best outcomes.

We support the children within our care, protect them from maltreatment and have robust procedures in place to prevent the impairment of children's health and development. Safeguarding is a much wider subject than the elements covered within this single child protection policy, therefore this document should be used in conjunction with the other nursery policies and procedures.

At Little Stepping Stones Day Nurseries we will work with children, parents, external agencies and the community to ensure the welfare and safety of children and to give them the very best start in life. Children have the right to be treated with respect and to be safe from any abuse in whatever form.

To this end we will:

- Create an environment to encourage children to develop a positive self-image
- Encourage children to develop a sense of independence and autonomy in a way that is appropriate to their age and stage of development
- Provide a safe and secure environment for all children
- Always listen to children.

¹ Definition taken from the HM Government document 'Working together to safeguard children 2013'

Our nursery has a clear commitment to protecting children and promoting welfare. Should anyone believe that this policy is not being upheld, it is their duty to report the matter to the attention of the nursery manager / owner at the earliest opportunity.

The legal framework for this policy is based on Safeguarding Vulnerable Groups Act (2006).

Practitioners have a duty to protect and promote the welfare of children. Due to the many hours of care we are providing, staff will often be the first people to sense that there is a problem. They may well be the first people in whom children confide about abuse. The nursery has a duty to be aware that abuse does occur in our society.

This statement lays out the procedures that will be followed if we have any reason to believe that a child in our care is subject to welfare issues including physical, sexual, emotional abuse or neglect.

Our prime responsibility is the welfare and well-being of all children in our care. As such we believe we have a duty to the children, parents and staff to act quickly and responsibly in any instance that may come to our attention. All staff will work as part of a multi-agency team where needed in the best interests of the child.

The nursery aims to:

- Ensure that children are never placed at risk while in the charge of nursery staff
- Ensure that confidentiality is maintained at all times
- Ensure that all staff are trained to understand the safeguarding policy and procedure, are alert to identify possible signs of abuse, understand what is meant by child protection and are aware of the different ways in which children can be harmed including by other children i.e. bullying, discriminatory behaviour
- Ensure that all staff are familiar and updated regularly with child protection issues and procedures
- Ensure parents are fully aware of child protection policies and procedures when they register with the nursery and are kept informed of all updates when they occur
- Keep the child at the centre of all we do
- Regularly review and update this policy with staff and parents where appropriate.

Children will be supported by offering reassurance, comfort and sensitive interactions. Activities will be devised according to individual circumstances to enable children to develop confidence within their peer group.

Ofsted 0300 123 3155

Types of Abuse

Abuse and neglect are forms of maltreatment of a child. Somebody may abuse or neglect a child by harming them, or by failing to act to prevent harm. Children may be abused within a family, institution, or community setting by those known to them or a stranger. This could be an adult or adults, another child or children.

The signs and indicators listed below may not necessarily indicate that a child has been abused, but will help us to recognise that something may be wrong, especially if a child shows a number of these symptoms or any of them to a marked degree.

Physical Abuse

Action needs to be taken if staffs have reason to believe that there has been a physical injury to a child, including deliberate poisoning; where there is definite knowledge, or reasonable suspicion that the injury was inflicted or knowingly not prevented. These symptoms may include bruising or injuries in an area that is not usual for a child, e.g. fleshy parts of the arms and legs, back, wrists, ankles and face.

Many children will have cuts and grazes from normal childhood injuries - these should also be logged and discussed with the nursery manager or room leader.

Children and babies may be abused physically through shaking or throwing. Other injuries may include burns or scalds. These are not usual childhood injuries and should always be logged and discussed with the nursery manager

Procedure:

- All signs of marks/injuries to a child, when they come into the nursery or occur during time at the nursery, will be recorded as soon as it's noticed by a staff member
- The incident will be discussed with the parent at the earliest opportunity
- Such discussions will be recorded and the parent will have access to such records
- If there appears to be any queries regarding the injury, the Local Safeguarding Children's Board (LSCB) in the local authority will be notified.

Fabricated Illness

This is also a type of physical abuse. This is where a child is presented with an illness that is fabricated by the adult carer. The carer may seek out unnecessary medical treatment or investigation. The signs may include a carer exaggerating a real illness or symptoms, complete fabrication of symptoms or inducing physical illness e.g. through poisoning, starvation, inappropriate diet. This may also be presented through false allegations of abuse or encouraging the child to appear disabled or ill to obtain unnecessary treatment or specialist support.

Sexual Abuse

Action needs to be taken under this heading if the staff member has witnessed occasion(s) where a child indicated sexual activity through words, play, drawing, had an excessive pre-occupation with sexual matters, or had an inappropriate knowledge of adult sexual behaviour or language. This may include acting out sexual activity on dolls/toys or in the role play area with their peers, drawing pictures that are inappropriate for a child, talking about sexual activities or using sexual language or words. The child may become worried when their clothes are removed, e.g. for nappy changes.

The physical symptoms may include genital trauma, discharge, and bruises between the legs or signs of a sexually transmitted disease (STD). Emotional symptoms could include a distinct change in a child's behaviour. They may be withdrawn or overly extroverted and outgoing. They may withdraw away from a particular adult and become distressed if they reach out for them, but they may also be particularly clingy to a potential abuser so all symptoms and signs should be looked at together and assessed as a whole.

If a child starts to talk openly to an adult about abuse they may be experiencing; the procedure stated later in this document under 'recording abuse suspicions' will be followed.

Procedure:

- The adult should reassure the child and listen without interrupting if the child wishes to talk
- The observed instances will be detailed in a confidential report
- The observed instances will be reported to the nursery manager
- The matter will be referred to LSCB in the local authority.

Emotional Abuse

Action should be taken under this heading if the staff member has reason to believe that there is a severe, adverse effect on the behaviour and emotional development of a child, caused by persistent or severe ill treatment or rejection.

This may include extremes of discipline where a child is shouted at or put down on a consistent basis, lack of emotional attachment by a parent, or it may include parents or carers placing inappropriate age or developmental expectations upon them. Emotional abuse may also be imposed through the child witnessing domestic abuse and alcohol and drug misuse by adults caring for them.

The child is likely to show extremes of emotion with this type of abuse. This may include shying away from an adult who is abusing them, becoming withdrawn, aggressive or clingy in order to receive their love and attention. This type of abuse is harder to identify as the child is not likely to show any physical signs.

Procedure:

- The concern should be discussed with the nursery manager/room supervisor
- The concern will be discussed with the parent
- Such discussions will be recorded and the parent will have access to such records
- A Common Assessment Framework (CAF) may need to be completed
- If there appears to be any queries regarding the circumstances, the matter will be referred to the LSCB in the local authority.

Neglect

Action should be taken under this heading if the staff member has reason to believe that there has been persistent or severe neglect of a child (for example, by exposure to any kind of danger, including cold and starvation and failure to seek medical treatment when required on behalf of the child), which results in serious impairment of the child's health or development, including failure to thrive.

Signs may include a child persistently arriving at nursery unwashed or unkempt, wearing clothes that are too small (especially shoes that may restrict the child's growth or hurt them), arriving at nursery in the same nappy they went home in or a child having an illness that is not being addressed by the parent. A child may also be persistently hungry if a parent is withholding food or not providing enough for a child's needs.

Neglect may also be shown through emotional signs, e.g. a child may not be receiving the attention they need at home and may crave love and support at nursery. They may be clingy and emotional. In addition, neglect may occur through pregnancy as a result of maternal substance abuse.

Procedure:

- The concern will be discussed with the parent
- Such discussions will be recorded and the parent will have access to such records
- A CAF may need to be completed

- If there appear to be any queries regarding the circumstances the LSCB in the local authority will be notified.

Indicators of child abuse

- Failure to thrive and meet developmental milestones
- Fearful or withdrawn tendencies
- Aggressive behaviour
- Unexplained injuries to a child or conflicting reports from parents or staff
- Repeated injuries
- Unaddressed illnesses or injuries.

Recording suspicions of abuse and disclosures

Staff should make an objective record (supported by the nursery manager) of any observation or disclosure and include:

- Child's name
- Child's address
- Age of the child and date of birth
- Date and time of the observation or the disclosure
- Exact words spoken by the child
- Exact position and type of injuries or marks seen
- Exact observation of an incident including any other witnesses
- Name of the person to whom the concern was reported, with date and time; and the names of any other person present at the time.
- Any discussion held with the parent(s) (where deemed appropriate).

These records should be signed by the person reporting this and the manager, dated and kept in a separate confidential file.

If a child starts to talk to an adult about potential abuse it is important not to promise the child complete confidentiality. This promise cannot be kept. It is vital that the child is allowed to talk openly and disclosure is not forced or words put into the child's mouth. As soon as possible after the disclosure it is vital details are logged down accurately.

It may be thought necessary that through discussion with all concerned the matter needs to be raised with the LSCB and Ofsted or a Common Assessment Framework (CAF) needs to be initiated. Staff involved may be asked to supply details of any information/concerns they have with regard to a child. The nursery expects all members of staff to co-operate with the LSCB and Ofsted in any way necessary to ensure the safety of the children.

Staff must not make any comments either publicly or in private about a parent's or staff's supposed or actual behaviour.

Staffing and Volunteering

It is the policy of the nursery to provide a secure and safe environment for all children. The nursery will therefore not allow an adult to be left alone with a child who has not received their enhanced Disclosure and Barring Service (DBS) clearance.

All staff will attend child protection training and receive initial basic child protection training during their induction period. This will include the procedures for spotting signs and behaviours of abuse and abusers, recording and reporting concerns and creating a safe and secure environment for the children in the nursery.

We have a named person within the nursery that takes lead responsibility for safeguarding and co-ordinates child protection and welfare issues. The nursery DSCO undertakes specific training and receives regular updates to developments within this field.

The Designated Safeguarding Co-ordinator (DSCO) at the nursery is: **Margaret O'Neill**

- We provide adequate and appropriate staffing resources to meet the needs of children
- Applicants for posts within the nursery are clearly informed that the positions are exempt from the Rehabilitation of Offenders Act 1974. Candidates are informed of the need to carry out checks before posts can be confirmed. Where applications are rejected because of information that has been disclosed, applicants have the right to know and to challenge incorrect information
- We recheck the suitability of all adults working or volunteering with children, including anything in their private life or medical background that may affect their suitability to care for the children
- We abide by Ofsted requirements in respect of references and suitability checks for staff and volunteers, to ensure that no disqualified person or unfit person works at the nursery or has access to the children
- We ensure we receive at least two written references BEFORE a new member of staff commences employment with us
- All students will have enhanced DBS checks conducted on them before their placement starts
- Volunteers, including students, do not work unsupervised
- We abide by the Safeguarding Vulnerable Groups Act (2006) requirements in respect of any person who is dismissed from our employment, or resigns in circumstances that would otherwise have led to dismissal for reasons of child protection concern
- We have procedures for recording the details of visitors to the nursery and take security steps to ensure that we have control over who comes into the nursery, so that no unauthorised person has unsupervised access to the children
- All contractors/external workers will be enhanced DBS checked and the manager will request this before allowing them access to the nursery. All visitors/contractors will still be accompanied whilst on the premises, especially when in the areas the children use
- All staff have access to a whistleblowing policy which will enable them to share any concerns that may arise about their colleagues in an appropriate manner
- All staff will receive regular supervision meetings where opportunities will be made available to discuss child protection training and any needs for further support
- The deployment of staff within the nursery allows for constant supervision and support. Where children need to spend time away from the rest of the group, the door will be left ajar or other safeguards will be placed into action to ensure the safety of the child and the adult.

Informing Parents

Parents are normally the first point of contact. If a suspicion of abuse is recorded, parents are informed at the same time as the report is made, except where the guidance of the LSCB does not allow this. This will usually be the case where the parent or family member is the likely abuser, or where a child may be endangered by this disclosure. In these cases the investigating officers will inform parents.

Confidentiality

All suspicions, enquiries and external investigations are kept confidential and shared only with those who need to know. Any information is shared under the guidance of the LSCB.

Support to Families

The nursery takes every step in its power to build up trusting and supportive relations among families, staff and volunteers within the nursery.

The nursery continues to welcome the child and the family whilst enquiries are being made in relation to abuse in the home situation. Parents and families will be treated with respect in a non-judgmental manner whilst any external investigations are carried out in the best interests of the child.

Confidential records kept on a child are shared with the child's parents or those who have parental responsibility for the child, only if appropriate under the guidance of the LSCB with the proviso that the care and safety of the child is paramount. We will do all in our power to support and work with the child's family.

Employees or Volunteers of the Nursery

If an allegation is made against a member of staff or volunteer, we will follow the below procedure:

- The allegation should be reported to the senior manager on duty. If this person is the subject of the allegation then this should be reported to the owner / DSCO / deputy manager instead.
- The Local Authority Designated Officer (LADO), Ofsted and the LSCB will then be informed immediately in order for this to be investigated by the appropriate bodies promptly:
- The LADO will be informed immediately for advice and guidance
- A full investigation will be carried out by the appropriate professionals (LADO, Ofsted, LSCB) to determine how this will be handled
- The nursery will follow all instructions from the LADO, Ofsted, LSCB and asks all staff members to do the same and co-operate where required
- Support will be provided to all those involved in an allegation throughout the external investigation in line with LADO support and advice
- The nursery reserves the right to suspend any member of staff during an investigation
- All enquiries/external investigations/interviews will be documented and kept in a locked file
- Unfounded allegations will result in all rights being re-instated
- Founded allegations will be passed on to the relevant organisation (police) and will result in the termination of employment. Ofsted will be notified immediately of this decision. The nursery is also required to notify the Disclosure and Barring Service (DBS) to ensure their records are updated
- All records will be kept until the person reaches normal retirement age or for 10 years if that is longer. This will ensure accurate information is available for references and future DBS checks and avoids any unnecessary re-investigation
- The nursery retains the right to dismiss any member of staff in connection with founded allegations following an inquiry
- Counselling will be available for any member of the nursery who is affected by an allegation, their colleagues in the nursery and the parents.

Key Person Policy | EYFS 3.26

The key person ensures that within the day to day demands of the setting, each child for whom they have special responsibility feels individual, cherished and thought about by someone in particular while they are away from home. (DfES Early Years Foundation Stage Effective Practice: Key Person page 7.)

Practitioners Responsibilities

Relationships with Key Children

- The key person provides a secure attachment for their key children in nursery.
- They help their key children settle in and become familiar with the setting.
- The key person meets the needs of their key children responding sensitively to their feelings, ideas and behaviour.
- The key person provides a 'secure base' for the children by being there to support them and allowing them to explore at their own pace.
- They are primarily responsible for their key children's care routines.

Relationships with Parents / Carers

- Key persons should develop a good relationship with parents/carers, ensuring that the child is cared for appropriately at nursery and accommodating their individual needs within the daily routine.
- The key person needs to develop a two way flow of information between themselves and the parent/carer to help them become aware of any significant aspects of family life that maybe important to the child.
- The key person has responsibility for sharing their key children's development profiles with parents and other professionals as required, in cases of children with additional needs or identified children in need they will be called upon to attend reviews and core group meetings with the support of a senior manager.

Records

- The key person is responsible for observational records of their key children, using these to inform next steps, individualised planning, IEP's and completing development profiles for each of their key children.
- Where a child is supported by another member of staff who is not their key person e.g. SEN support record keeping then becomes a joint responsibility.

Welfare & Safeguarding

- Key persons are responsible for the welfare of the children in their care monitoring patterns of absence, injury and development referring them on where necessary.

Transition

- The key person plays an integral role in the transition, aiding this by introducing the children and their parents/carers to their new key person and helping them to become familiar with their new environment.
- It is the responsibility of the key person to pass on records during transition and to ensure that these records are all up to date.
- In the case of a staff members absence it is the responsibility of a secondary key person to cover the role of the primary key person.

Managers Responsibilities

- It is the manager's responsibility to arrange a suitable time for home visiting referring to staffs availability.
- There should be a secondary key person for each child who takes on responsibility in the occurrence of staff holidays or prolonged absence.
- Managers must provide opportunities for staff to give regular feedback and to support staff in their role as key person, ensuring that all developmental needs are met.

Inclusion & Equality

Statement of Intent

The nursery takes great care to treat each individual as a person in their own right, with equal rights and responsibilities to any other individual, whether they are an adult or a child. The nursery is committed to providing equality of opportunity and anti-discriminatory practice for all children and families according to their individual needs. Discrimination on the grounds of gender, age, race, religion or belief, marriage or civil partnership, disability, sexual orientation, gender reassignment, pregnancy or maternity, ethnic or national origin, or political belief has no place within this nursery.

A commitment to implementing our inclusion and equality policy will form part of each employee's job description. Should anyone believe that this policy is not being upheld, it is their duty to report the matter to the attention of the nursery manager / owner at the earliest opportunity.

The legal framework for this policy is based on:

- Equality Act 2010
- Children Act 2004
- Care Standards Act 2002
- Childcare Act 2006
- Special Educational Needs and Disability Act 2001.

The nursery and staff are committed to:

- Recruiting, selecting, training and promoting individuals on the basis of occupational skills requirements. In this respect, the nursery will ensure that no job applicant or employee will receive less favourable treatment on the grounds of age, sex, gender reassignment, disability, marriage or civil partnership, race, religion or belief, sexual orientation and pregnancy or maternity which cannot be justified as being necessary for the safe and effective performance of their work or training
- Providing a childcare place, wherever possible, for children who may have learning difficulties and/or disabilities or are deemed disadvantaged according to their individual circumstances, and the nursery's ability to provide the necessary standard of care
- Striving to promote equal access to services and projects by taking practical steps, (wherever possible and reasonable) such as ensuring access to people with additional needs and by producing materials in relevant languages and media for all children and their families
- Providing a secure environment in which all our children can flourish and all contributions are valued
- Including and valuing the contribution of all families to our understanding of equality, inclusion and diversity
- Providing positive non-stereotypical information
- Continually improving our knowledge and understanding of issues of equality, inclusion and diversity
- Regularly reviewing, monitoring and evaluating the effectiveness of inclusive practices to ensure they promote and value diversity and difference and that the policy is effective and practices are non-discriminatory
- Making inclusion a thread, which runs through the entirety of the nursery, for example, by encouraging positive role models through the use of toys, imaginary play and activities, promoting non-stereotypical images and language and challenging all discriminatory behaviour (see dealing with discriminatory behaviour policy).

Admissions/Service Provision

The nursery is accessible to all children and families in the local community and further afield through a comprehensive and inclusive admissions policy.

The nursery will strive to ensure that all services and projects are accessible and relevant to all groups and individuals in the community within targeted age groups.

Recruitment

All members of the selection group will be committed to the inclusive practice set out in this policy and will have received appropriate training in this regard.

Application forms will be sent out along with a copy of the equal opportunities monitoring form. Application forms will not include questions that potentially discriminate against the grounds specified in the statement of intent.

At interview, no questions will be posed which potentially discriminate against the grounds specified in the statement of intent. All candidates will be asked the same questions, and members of the selection group will not introduce nor use any personal knowledge of candidates acquired outside the selection process. Candidates will be given the opportunity to receive feedback on the reasons why they were not successful.

Staff

It is the policy of Little Stepping Stones Day Nurseries not to discriminate in the treatment of individuals. All staff are expected to co-operate with the implementation, monitoring and improvement of this and other policies. All staff are expected to challenge language, actions, behaviours and attitudes which are oppressive or discriminatory on the grounds as specified in this policy and recognise and celebrate other cultures and traditions. All staff are expected to participate in equality and inclusion training.

Training

The nursery recognises the importance of training as a key factor in the implementation of an effective inclusion and equality policy. The nursery will strive towards the provision of inclusion, equality and diversity training for all staff on an annual basis.

Early Learning Framework

Early learning opportunities offered in the nursery encourage children to develop positive attitudes to people who are different from them. It encourages children to empathise with others and to begin to develop the skills of critical thinking.

We do this by:

- Making children feel valued and good about themselves
- Ensuring that all children have equal access to early learning and play opportunities
- Reflecting the widest possible range of communities in the choice of resources
- Avoiding stereotypical or derogatory images in the selection of materials
- Acknowledging and celebrating a wide range of religions, beliefs and festivals
- Creating an environment of mutual respect and empathy
- Helping children to understand that discriminatory behaviour and remarks are unacceptable
- Ensuring that all early learning opportunities offered are inclusive of children with learning difficulties and/or disabilities and children from disadvantaged backgrounds

- Ensuring that children whose first language is not English have full access to the early learning opportunities and are supported in their learning.

Food

- We work in partnership with parents to ensure that the medical, cultural and dietary needs of children are met
- We will help children to learn about a range of food and cultural approaches to meal times and to respect the differences among them.

Open Door Policy

- At Little Stepping Stones Day Nurseries our manager operates an open door policy so that all families who wish to, may be discuss in the running of the nursery.
- Additional information about the nursery and various activities will be communicated in a variety of ways according to individual needs (written, verbal and translated), to ensure that all parents have information about the nursery.

Settling In

We aim for children to feel safe, stimulated and happy in the nursery and to feel secure and comfortable with all staff. We also want parents to have confidence in both their children's well-being and their role as active partners, with the child being able to benefit from what the nursery has to offer.

We aim to support parents and other carers to help their children settle quickly and easily by giving consideration to the individual needs and circumstances of each child and their families.

The nursery staff will work in partnership with parents to settle their child into the nursery environment by:

- Providing parents with relevant information regarding the policies and procedures of the nursery
- Encouraging the parents and children to visit the nursery during the weeks before an admission is planned
- Planning settling in visits and introductory sessions (lasting approximately 1-2 hours). These will be provided free of charge over a one or two week period dependent on individual needs, age and stage of development
- Welcoming parents to stay with their child during the first few weeks until the child feels settled and the parents feel comfortable about leaving their child. Settling in visits and introductory sessions are key to a smooth transition and to ensure good communication and information sharing between staff and parents
- Reassuring parents whose children seem to be taking a long time settling into the nursery
- Encouraging parents, where appropriate, to separate themselves from their children for brief periods at first, gradually building up to longer absences
- Allocating a key person to each child and his/her family, before he/she starts to attend. The key person welcomes and looks after the child ensuring that their care is tailored to meet their individual needs. He/she offers a settled relationship for the child and build a relationship with his/her parents during the settling in period, and throughout his/her time at the nursery, to ensure the family has a familiar contact person to assist with the settling in process
- Reviewing the nominated key person if the child is bonding with another member of staff to ensure the child's needs are supported
- Respecting the circumstances of all families, including those who are unable to stay for long periods of time in the nursery and reassure them of their child's progress towards settling in
- Children will not be taken on an outing from the nursery until he/she is completely settled.

Parents & Carers As Partners

We believe that in order for children to receive quality care and early learning that suits their individual needs, parents and staff need to work together in a close partnership. The two-way sharing of information is key to this. The nursery team welcomes parents as partners and this relationship needs to be built on trust and understanding. It is important that we, as practitioners, are able to support parents in an open and sensitive manner.

The nursery wishes to ensure parents are an integral part of the care and early learning team within the nursery.

Our policy is to:

- Recognise and support parents as their child's first and most important educators, and to welcome them into the life of the nursery
- Generate confidence and encourage parents to trust their own instincts and judgment regarding their own child
- Welcome all parents into the nursery at any time
- Welcome nursing mothers. The nursery will make available a private area whenever needed to offer space and privacy to nursing mothers
- Ensure nursery documentation and communications are in a format to suit individual parent's needs, e.g. Braille, multi-lingual, electronic communications
- Ensure that all parents are aware of the nursery's policies and procedures. A detailed parent prospectus will be provided and our full policy documents will be available to parents at all times
- Maintain regular contact with parents to help us to build a secure and beneficial working relationship for their children
- Support parents in their own continuing education and personal development and inform them of relevant conferences, workshops and training
- Create opportunities for parents to talk to other adults in a secure and supportive environment through such activities as open days, parents evenings and a parents' forum
- Inform parents about the range and type of activities and experiences provided for children, the daily routines of the setting, the types of food and drinks provided for children and events through regularly distributed newsletters & the nursery website
- Operate a key person system to enable a close working relationship with all parents. Parents are given the name of the key person of their child and their role when the child starts. Support two-way information sharing regarding each child's individual needs both in nursery and at home
- Inform parents on a regular basis about their child's progress and involve them in the shared record keeping. Parents' evenings will be held at least twice a year. Parents will be consulted with about the times of meetings to avoid excluding anyone
- Consider and discuss all suggestions from parents concerning the care and early learning of their child and nursery operation
- Provide opportunities and support for all parents to contribute their own skills, knowledge and interests to the activities of the nursery
- Inform all parents of the systems for registering queries, compliments, complaints or suggestions, and to check that these systems are understood by parents. All parents have access to our written complaints procedure
- Provide opportunities for parents to learn about the Early Years Foundation Stage and about young children's learning in the nursery and how parents can share learning at home and where they can access further information
- Provide a written contract between the parent(s) and the nursery regarding conditions of acceptance and arrangements for payment
- Respect the family's religious and cultural backgrounds and beliefs and to accommodate any special requirements wherever possible and practical to do so
- Inform parents how the nursery supports children with special educational needs and disabilities
- Find out the needs and expectations of parents. These will be obtained through regular feedback via questionnaires, suggestion system and encouraging parents to review working practices. These are then evaluated by the nursery to promote nursery practice, policy and staff development.

Safe Care & Practice | EYFS 3.4 - 3.8

Working with young children to ensure they feel safe, secure and happy involves nursery staff being responsive to their needs, whilst maintaining professional. This includes giving children cuddles and changing children's nappy's or clothes.

To minimise the risk of allegations the nursery promotes good practice in the following ways:

- Although it is appropriate to cuddle children, staff are advised to usually do this in view of other children and practitioners. There may be occasions, for example when a child is ill and needs comforting away from others and this will continue to take place. It is the duty of all staff and the manager to ensure that comforting children is appropriate and to monitor practice
- When changing children's nappy's or soiled/wet clothing, the doors remain open, where appropriate. All staff are aware of the whistle blowing procedures and the manager carries out random checks throughout the day to ensure safe practices
- Inappropriate behaviour such as over tickling, over boisterous or inappropriate questions such as asking children to tell them they love them is discouraged.

Management will challenge inappropriate behaviour in line with the supervision/ disciplinary or whistleblowing procedures. If a parent or member of staff has concerns or questions about safe care and practice procedures they are urged to see the manager at the earliest opportunity.

Arrivals & Departures

Arrivals & Departures Of Children

It is the policy of the nursery to give a warm welcome to each child on their arrival.

Parents are requested to pass the care of their child to a specific member of staff who will ensure his/her safety (this is usually a child's key person). The staff member receiving the child immediately records his/her arrival in the daily attendance register. Any specific information provided by the parents should be recorded.

If the parent requests the child to be given medicine during the day the staff member must ensure that the medication procedure is followed.

If the child is not to be collected by the parent at the end of the session, an agreed procedure must be followed to identify the nominated adult. Photo identification and a password are also required where possible for the nominated adult.

The planned departure of the child should be anticipated by the key person in the group. All medicines should be recovered from the medicine box/fridge only when the parent has arrived and should be handed to him/her personally. The medication policy is to be followed here with regards to receiving a parental signature.

No child should be handed over to anyone other than the known parent unless an agreement has been made at the time of arrival. If in doubt check the person's identity by ringing the child's parent or their emergency contact number.

On departure, the child register must be immediately marked to show that the child has left the premises.

Adults Arriving Under The Influence Of Alcohol Or Drugs

The nursery's prime focus is the care and safety of the children it cares for. All procedures are written with this in mind.

If an adult arrives to collect a child, whether this is the parent/carer or another designated adult (see above procedure), and they are deemed to be under the influence of alcohol or drugs, the senior member of management on duty will assess whether the child's safety and welfare may be impacted if released into this person's care.

The decision will be discussed with the adult and where required an additional named adult will be contacted to collect the child or this will be referred to the duty social care worker if this is not possible. During this time the child will be cared for by another member of staff so they are able to remain calm and engaged in play.

Where an adult is deemed unsuitable to drive due to suspected alcohol or drugs consumption, and may endanger themselves and others if they do, the nursery will intervene and endeavour to prevent this individual from getting back into the vehicle. The nursery reserves the right to also report such matters to the police and, in the case of any employees, reserves the right to take disciplinary action as may be appropriate.

Arrivals & Departures Of Visitors

For arrivals and departures of visitors the appropriate records must be completed on entry and exit in the visitors book. Please refer to Supervision of Visitors Policy for further information.

Late Collection & Non-Collection

All parents agree an approximate arrival time at the nursery and are informed of procedures on what to do if they expect to be late. This includes:

- Calling the nursery as soon as possible to advise of their situation
- Asking the nominated person (as per their registration form) to collect their child wherever possible
- Informing the nursery of this person's identity so the nursery can talk to the child if appropriate. This will help to reduce or eliminate the distress that may be caused by this situation
- If the nominated person is not known to the nursery staff the parent must provide a detailed description of this person, including their date of birth where known. This designated person must know the individual child's safety password in order for the nursery to release the child into their care. This is the responsibility of the parent.

In the instance of a child not being collected from the nursery after a reasonable amount of time (30 mins) has been allowed for lateness, the following procedure will be initiated by staff:

- Inform the nursery manager that a child has not been collected
- The manager will check for any information regarding changes to normal routines, parents' work patterns or general information. If there is no information recorded, the parents will be contacted on the numbers provided for their mobile, home or work. If this fails the emergency contacts will then be contacted as per the child's records

- The manager/staff member on duty in charge and one other member of staff must stay behind with the child (if it falls outside normal operating hours). During normal operating times, staff ratios must be met and planned for accordingly
- If the parents still have not collected the child, the manager will telephone all contact numbers available every 10 minutes until contact is made. These calls need to be logged on a full incident record
- In the event of no contact being made after one hour has lapsed, the person in charge will ring the Social Services Emergency Duty Team and Ofsted Care Inspectorate to advise them of the situation
- The two members of staff will remain in the building until suitable arrangements have been made for the collection of the child.
- The child's welfare and needs will be met at all times and to minimise distress staff will distract, comfort and reassure the child during the process
- In order to provide this additional care a late fee of £20 for the first 30 min and £15 every 15 min thereafter will be charged to parents. This will pay for any additional operational costs that caring for a child outside their normal nursery hours may incur.

Nutrition & Meal Times | EYFS 3.45 - 3.47

Mealtimes should be a happy, social occasion for children and staff alike. Positive interactions should be shared at these times and enjoyed. Little Stepping Stones Day Nurseries is committed to offering children healthy, nutritious and balanced meals and snacks which meet individual needs and requirements.

We will ensure that:

- A balanced and healthy breakfast, midday meal, tea and two daily snacks are provided for children attending a full day at the nursery
- Menus are planned in advance, rotated regularly and reflect cultural diversity and variation. These are displayed for children and parents to view
- We provide nutritious food at all snack and meal times, avoiding large quantities of fat, sugar and salt and artificial additives, preservatives and colourings
- Menus include at least 2 servings of fresh fruit and vegetables per day
- Parents and children are involved in menu planning
- Fresh drinking water is constantly available and accessible. It is frequently offered to children and babies and intake is monitored
- Individual dietary requirements are respected. We gather information from parents regarding their children's dietary needs including any special dietary requirements, preferences and food allergies that a child has and any special health requirements before a child is admitted to the nursery. Where appropriate we will carry out a risk assessment in the case of allergies and work alongside parents to put into place an individual dietary plan for their child
- Staff show sensitivity in providing for children's diets and allergies. They do not use a child's diet or allergy as a label for the child, or make a child feel singled out because of her/his diet or allergy
- Staff set a good example and eat with the children and show good table manners. Meal and snack times are organised so that they are social occasions in which children and staff participate in small groups. During meals and snack times children are encouraged to use their manners and say 'please' and 'thank you' and conversation is encouraged
- Staff use meal and snack times to help children to develop independence through making choices, serving food and drink, and feeding themselves. Staff support children to make healthy choices and understand the need for healthy eating
- We provide foods from the diet of each of the children's cultural backgrounds, providing children with familiar foods and introducing them to new ones. Cultural differences in eating habits are respected

- Any child who shows signs of distress at being faced with a meal he/she does not like will have his/her food removed without any fuss. If a child does not finish his/her first course, he/she will still be given a small helping of dessert. Children not on special diets are encouraged to eat a small piece of everything
- Children who refuse to eat at the mealtime are offered food later in the day
- Children are given time to eat at their own pace and not rushed
- Quantities offered take account of the ages of the children being catered for
- We promote positive attitudes to healthy eating through play opportunities and discussions
- The nursery provides parents with daily written records of feeding routines for all children under two
- No child is ever left alone when eating/drinking to minimise the risk of choking
- All staff that prepare and handle food are competent to do so and receive training in food hygiene.

Sickness & Illness | EYFS 3.42

Children should not be left at the nursery if they are unwell. If a child is unwell then they will prefer to be at home with their parent(s) rather than at nursery with their peers. We will follow these procedures to ensure the welfare of all children within the nursery:

- If a child becomes ill during the nursery day, their parent(s) will be contacted and asked to pick their child up as soon as possible. During this time the child will be cared for in a quiet, calm area with their key person
- Should a child have an infectious disease, such as an eye/ear infection or sickness and diarrhoea, they should not return to nursery until they have been clear for at least 48 hours
- It is vital that we follow the advice given to us by our registering authority and exclude specific contagious conditions, e.g. sickness and diarrhoea (48 hours), conjunctivitis (48 hours) and chicken pox (5 days) to protect other children in the nursery. Illnesses of this nature are very contagious and it is exceedingly unfair to expose other children to the risk of an infection
- If a contagious infection is identified in the nursery, parents will be informed to enable them to spot the early signs of this illness. All equipment and resources that may have come into contact with a contagious child will be cleaned and sterilised thoroughly to reduce the spread of infection
- It is important that children are not subjected to the rigours of the nursery day, which requires socialising with other children and being part of a group setting, when they have first become ill and require a course of antibiotics. Our policy, therefore, is to exclude children on antibiotics for the first 48 hours of the course (unless this is part of an ongoing care plan to treat individual medical conditions e.g. asthma and the child is not unwell)
- The nursery has the right to refuse admission to a child who is unwell. This decision will be taken by the manager on duty and is non-negotiable
- Information/posters about head lice are readily available and all parents are requested to regularly check their children's hair. If a parent finds that their child has head lice we would be grateful if they could inform the nursery so that other parents can be alerted to check their child's hair.

Meningitis Procedure

If a parent informs the nursery that their child has meningitis, the nursery manager should contact the Infection Control (IC) Nurse for their area, and Ofsted Care Inspectorate. The IC Nurse will give guidance and support in each individual case. If parents do not inform the nursery, we will be contacted directly by the IC Nurse and the appropriate support will be given.

Transporting Children to Hospital Procedure

- If the sickness is severe, call for an ambulance immediately. DO NOT attempt to transport the sick child in your own vehicle
- Whilst waiting for the ambulance, contact the parent and arrange to meet them at the hospital
- A senior member of staff must accompany the child and collect together registration forms, relevant medication sheets, medication and the child's comforter. A member of the management team must also be informed immediately.

Health & Safety Statement

Our policy is to provide and maintain safe and healthy working conditions, equipment and systems of work for all our employees and a safe early learning environment in which children are cared for and learn. We provide information, training and supervision to meet this purpose and we wish to develop and promote a strong health and safety culture within the nursery for the benefit of all staff, children and parents. We also accept our responsibility for the health and safety of other people who may be affected by our activities.

The allocation of duties for safety matters and the particular arrangements which we will make to implement the policy are set out within this policy and sufficient resources will be made available to honour our commitment.

The policy will be kept up-to-date, particularly as the nursery changes in nature and size and will be revised annually, or as and when required. We therefore welcome any useful comments from members of staff, parents and visitors regarding this policy.

Aims & Objectives

The aim of this policy statement is to ensure that all reasonably practical steps are taken to ensure the health, safety and welfare of all persons using the premises.

To achieve this we will actively work towards the following objectives:

- Establish and maintain a safe and healthy environment throughout the nursery including outdoor spaces
- Establish and maintain safe working procedures amongst staff and children
- Make arrangements for ensuring safety and the absence of risks to health in connection with the use, handling, storage and transport of hazardous articles and substances
- Ensure the provision of sufficient information, instruction and supervision to enable all people working in or using the nursery, to avoid hazards and contribute positively to their own health and safety and to ensure that staff have access to regular health and safety training
- Maintain a healthy and safe nursery and safe entry and exit from it
- Formulate effective procedures for use in case of fire and other emergencies and for evacuating the nursery premises. Practice this procedure on a regular basis to enable the safe and speedy evacuation of the nursery
- Follow the regulations of the Health & Safety at Work Act 1974 and any other relevant legislation
- Maintain a safe working environment for pregnant workers or for workers who have recently given birth including undertaking appropriate risk assessments
- Maintain a safe environment for those with disabilities and ensure all areas of the nursery are accessible (wherever practicable)
- Provide a safe environment for students or trainees to learn in
- Encourage all staff, visitors and parents to report any unsafe working practices or areas to ensure immediate responses by the management.

We believe the risks in the nursery environment to be low and we will maintain the maximum protection for children, staff and parents. The nursery will:

- Ensure all entrances and exits from the building, including fire exits are clearly identifiable and remain clear at all times
- Regularly check the premises room by room for structural defects, worn fixtures and fittings or electrical equipment and take the necessary remedial action
- Ensure that all staff, visitors, parents and children are aware of the fire procedures and regular fire drills are carried out
- Ensure that all members of staff are aware of the procedure to follow in case of accidents for staff, visitors and especially children
- Ensure that all members of staff take all reasonable action to control the spread of infectious diseases and wear protective gloves and clothing where appropriate
- Prohibit smoking on the nursery premises
- Prohibit any contractor from working on the premises without prior discussion with the officer in charge
- Prohibit running inside the premises unless in designated areas
- Risk assess all electrical sockets and take appropriate measures to reduce risks where necessary and ensure no trailing wires are left around the nursery
- Ensure all cleaning materials are placed out of the reach of children and kept in their original containers
- Wear protective clothing when cooking or serving food
- Prohibit certain foods, e.g. peanuts are not allowed in the nursery
- Ensure risk assessments are undertaken on the storage and preparation of food produce within the nursery
- Familiarise all staff and visitors with the position of the first aid boxes and ensure all know who the appointed first aiders are
- Ensure children are supervised at all times
- Ensure no student is left unsupervised at any time.

Responsibilities

Responsibility for Health and Safety in the nursery is that of the nursery Manager.

The manager has overall and final responsibility for this policy being carried out

The deputy nursery manager will be responsible in his/her absence.

All employees have the responsibility to co-operate with senior staff and the manager to achieve a healthy and safe nursery and to take reasonable care of themselves and others. Neglect of health and safety regulations/duties will be regarded as a disciplinary matter.

Whenever a member of staff notices a health or safety problem, which they are not able to rectify, they must immediately report it to the appropriate person named above. Parents and visitors are requested to report any concerns they may have to the senior member of staff in the area/manager.

Daily contact, monthly staff meetings and health and safety meetings provide consultation between management and employees, this will include health and safety matters.

Health & Safety Training

Person responsible for monitoring staff training is the nursery manager

Training Table:

Area	Training required	Who
First aid	Course	All staff
Dealing with blood	In house training/course	All staff and students
Safeguarding/	In house training/course	All staff and students
Risk assessment	In house training/course	All staff
Fire safety procedures	In house training	All staff and students
Use of fire extinguisher	In house training/course	All staff where possible
Manual handling	In house training/course	All staff and students
Stress awareness and management	In house training/course	All staff
Changing of nappies	In house training	All staff and students
Fire warden duties	External course	Fire Warden

At least one member of staff on duty MUST hold a full paediatric First Aid at Work certificate.

Health & Safety Arrangements

- All staff are responsible for general health and safety in the nursery
- Risk assessments will be conducted on all areas of the nursery, including rooms, activities, outdoor areas, resources and cleaning equipment
- All outings away from the nursery (however short) will include a prior risk assessment – more details are included in our outings policy
- All equipment and areas will be checked thoroughly by staff before children access the area. These checks will be recorded in each room and initialed by the staff responsible. All unsafe areas will be rectified by this member of staff to ensure the safety of children, if this cannot be achieved the manager will be notified immediately
- We provide appropriate facilities for all children, staff, parents and visitors to receive a warm welcome and basic care needs, e.g. easy to access toilet area and fresh drinking water
- The nursery will adhere to Control Of Substances Hazardous to Health Regulation (COSHH) to ensure all children, staff, parents and visitors are safe around any chemicals we may use on the premises
- All staff and students will receive appropriate training in all areas of health and safety which will include risk assessments, manual handling and fire safety
- We have a clear accident and first aid policy to follow in the case of any person in the nursery suffering injury from an accident or incident
- We have a clear fire safety policy and procedure which supports the prevention of fire and the safe evacuation of all persons in the nursery. This is to be shared with all staff, students, parents and visitors to the nursery
- All health and safety matters are reviewed informally on an ongoing basis and formally every six months or when something changes. Staff and parents will receive these updates as with all policy changes as and when they happen
- Staff and parents are able to contribute to any policy through the suggestion scheme and during the regular meetings held at nursery.

Medication | EYFS 3.42 - 3.44

We promote the good health of children attending the nursery and take necessary steps to prevent the spread of infection (see sickness and illness policy). If a child requires medicine we will obtain information about the child's needs for this, and will ensure this information is kept up-to-date.

When dealing with medication of any kind in the nursery, strict guidelines will be followed.

Prescription Medication

- Prescription medicine will only be given to the person named on the bottle for the dosage stated
- Medicines must be in their original containers
- Those with parental responsibility of any child requiring prescription medication should allow a senior member of staff to have sight of the bottle. The staff member should note the details of the administration on the appropriate form and another member of staff should check these details
- Those with parental responsibility must give prior written permission for the administration of each and every medication. However we will accept written permission once for a whole course of medication or for the ongoing use of a particular medication under the following circumstances:
 1. The written permission is only acceptable for that brand name of medication and cannot be used for similar types of medication, e.g. if the course of antibiotics changes, a new form will need to be completed
 2. The dosage on the written permission is the only dosage that will be administered. We will not give a different dose unless a new form is completed
 3. Parents should notify us IMMEDIATELY if the child's circumstances change, e.g. a dose has been given at home, or a change in strength/dose needs to be given.
- The nursery will not administer a dosage that exceeds the recommended dose on the instructions unless accompanied by a doctor's letter
- The parent must be asked when the child had last been given the medication before coming to the nursery; this information will be recorded on the medication form. Similarly when the child is picked up, the parent or guardian must be given precise details of the times and dosage given throughout the day. The parent's signature must be obtained at both times
- At the time of administering the medicine, a senior member of staff will ask the child to take the medicine, or offer it in a manner acceptable to the child at the prescribed time and in the prescribed form. (It is important to note that staff working with children are not legally obliged to administer medication)
- If the child refuses to take the appropriate medication then a note will be made on the form
- Where medication is "essential" or may have side effects, discussion with the parent will take place to establish the appropriate response
- Wherever possible ask parents to request that GPs prescribe the least number of doses per day, i.e. three x daily, rather than four x daily.

Non-Prescription Medication

- The nursery will administer one dose non-prescription medication for a short initial period, dependent on the medication or the condition of the child. After this time medical attention should be sought
- If the nursery feels the child would benefit from medical attention rather than non-prescription medication, we reserve the right to refuse nursery care until the child is seen by a medical practitioner
- If a child needs liquid paracetamol or similar medication during their time at nursery, such medication will be treated as prescription medication with the onus being on the parent to

provide the medicine should parents wish to use this (medicines containing aspirin will only be given if prescribed by a doctor)

- On registration, parents will be asked if they would like to fill out a medication form for a specific type of liquid paracetamol, which can be given in the case of an increase in the child's temperature. This form will state the dose to be given, the circumstances in which this can be given e.g. the temperature increase of their child, the specific brand name or type of liquid paracetamol and a signed statement to say that this may be administered in an emergency if they CANNOT contact the parent
- An emergency nursery supply of fever relief (e.g Calpol) and anti-histamines (e.g. Piriton) will be stored on site. Aspirin will not be accepted unless prescribed by a doctor
- If a child does require liquid paracetamol during the day and the parents cannot be contacted then the nursery manager will take the decision as to whether the child is safe to have this medication based on the time the child has been in the nursery, the circumstances surrounding the need for this medication and the medical history of the child on their registration form. Giving liquid paracetamol will be a last resort and the nursery staff will use other methods first to try and reduce a child's temperature, e.g. remove clothing, fanning, tepid cooling with a wet flannel. The child will be closely monitored until the parents collect the child
- For any non-prescription cream for skin conditions e.g. Sudocrem, prior written permission must be obtained from the parent and the onus is on the parent to provide the cream which should be clearly labelled with the child's name
- If any child is brought to the nursery in a condition in which he/she may require medication sometime during the day, the manager will decide if the child is fit to be left at the nursery. If the child is staying, the parent must be asked if any kind of medication has already been given, at what time and in what dosage and this must be stated on the medication form
- As with any kind of medication, staff will ensure that the parent is informed of any non-prescription medicines given to the child whilst at the nursery, together with the times and dosage given
- The nursery DOES NOT administer any medication unless prior written consent is given for each and every medicine
- In the case of medication that may need to be given to a child due to them becoming ill during the day, e.g. liquid paracetamol for temperature reduction, parents will be contacted as soon as possible to ensure all details are correct and that they agree with the dosage being given.

Staff Medication

The first aid box for staff should be kept in a readily accessible position, but out of reach of the children.

First aid boxes should only contain items permitted by the Health and Safety (First Aid) Regulations Act 1981, such as sterile dressing, bandages, and eye pads. No other medical items, such as paracetamol should be kept in the first aid box.

Storage

All medication for children must have the child's name clearly written on the original container and kept in a closed box, which is out of reach of all children and under supervision at all times.

Emergency medication, such as inhalers and epipens, will be within easy reach of staff in case of an immediate need, but will remain out of children's reach and under supervision at all times.

Any antibiotics requiring refrigeration must be kept in an area inaccessible to children.

All medications must be in their original containers, legible and not tampered with or they will not be given. All prescription medications should have the pharmacist's details and notes attached to show the dosage needed and the date the prescription was issued. This will all be checked, along with expiry dates, before staffs agree to administer medication.

Dealing with Discriminatory Behaviour

We have a duty to create and implement strategies in the nursery to prevent and address all discriminatory behaviour. Such strategies include:

- The nursery records all incidents relating to discrimination on any grounds
- All recorded incidents are reported to the children's parents, and when appropriate to the registering authority.

Parents have a right to know if discrimination occurs and what actions the nursery will take to tackle it.

Types Of Discrimination

- **Direct discrimination** occurs when someone is treated less favourably than another person because of a protected characteristic
- **Discrimination by association** occurs when there is a direct discrimination against a person because they associate with a person who has a protected characteristic
- **Discrimination by perception** occurs when there is a direct discrimination against a person because they are perceived to have a protected characteristic
- **Indirect discrimination** can occur where a provision or criterion is in place which applies to everyone in the organisation but particularly disadvantages people who share a protected characteristic
- **Harassment** is defined as *'unwanted conduct related to a relevant protected characteristic, which has the purpose or effect of violating an individual's dignity or creating an intimidating, hostile, degrading, humiliating or offensive environment for that individual'*
- **Third party harassment** is the harassment of employees by a third party not employed by the nursery, e.g. visitors or parents
- **Victimisation** occurs when an employee is treated badly or put to detriment because they have made or supported a complaint or raised grievance under the Equality Act 2010 or have been suspected of doing so.

Protected Characteristics

The nine protected characteristics under the Equality Act 2010 are:

- Age
- Disability
- Gender reassignment
- Race
- Religion or belief
- Sex
- Sexual orientation
- Marriage and civil partnership
- Pregnancy and maternity.

Incidents may involve a small or large number of persons, they may vary in their degree of offence and may not even recognise the incident has discriminatory implications; or at the other extreme their behaviour may be quite deliberate and blatant.

Examples of discriminatory behaviour are:

- Physical assault against a person or group of people
- Derogatory name calling, insults and discriminatory jokes
- Graffiti and other written insults

- Provocative behaviour such as wearing badges and insignia and the distribution of discriminatory literature
- Threats against a person or group of people because the nine protected characteristics listed above
- Discriminatory comments including ridicule made in the course of discussions
- Patronising words or actions.

Procedure

- All staff in the nursery should be constantly aware of and alert to any discriminatory behaviour or bullying taking place
- They must intervene firmly and quickly to prevent any discriminatory behaviour or bullying, this may include behaviour from parents. Any allegation should be taken seriously and reported to the nursery manager
- Each incident should be investigated and recorded in detail as accurately as possible. This record should be available for inspection by staff, inspectors and parents where appropriate, on request
- The nursery manager is responsible for ensuring that incidents are handled appropriately and sensitively and entered in the record book. Any pattern of behaviour should be indicated. Perpetrator/victim's initials may be used in the record book as information on individuals is confidential to the nursery
- Where an allegation is substantiated following an investigation, the parents of the child(ren) who are perpetrators and/or victims should be informed of the incident and of the outcome
- Continued discriminatory behaviour or bullying may lead to exclusion but such steps should only be taken when other strategies have failed to modify behaviour
- Adults found to be perpetrators must be reported immediately to the manager and where such adults are employees and such allegations are substantiated after investigation, appropriate disciplinary action shall be taken which can include dismissal.

Discriminatory behaviour or bullying needs to be recorded to ensure that:

- Strategies are developed to prevent future incidents
- Patterns of behaviour are identified
- Persistent offenders are identified
- Effectiveness of nursery policies are monitored
- A secure information base is provided to enable the nursery to respond to any discriminatory behaviour or bullying.

Nursery Staff

All staff should be alert and seek to overcome any ignorant or offensive behaviour based on fear or dislike of distinctions that children, staff or parents may express in nursery.

An atmosphere must be created where the victims of any form of discrimination have confidence to report such behaviour, and that subsequently they feel positively supported by the staff and management of the nursery.

It is incumbent upon all members of staff to ensure that they do not express any views or comments that are discriminatory. Nor must staff appear to endorse such views by failing to counter behaviour, which is prejudicial in a direct manner. A sensitive and informed approach must be used to counter any harassment perpetrated out of ignorance.

Promoting Positive Behaviour | EYFS 3.50 - 3.51

Our nursery believes that children flourish best when they know how they are expected to behave. Children gain respect through interaction with caring adults who show them respect and value their individual personalities. Positive, caring and polite behaviour will be encouraged and praised at all times in an environment where children learn to respect themselves, other people and their surroundings.

Children need to have set boundaries of behaviour for their own safety and the safety of their peers. Within the nursery we aim to set these boundaries in a way, which helps the child to develop a sense of the significance of their own behaviour, both on their own environment and those around them. Restrictions on the child's natural desire to explore and develop their own ideas and concepts are kept to a minimum.

We aim to:

- Recognise the individuality of all our children and that some behaviours are normal in young children e.g. biting
- Encourage self-discipline, consideration for each other, our surroundings and property
- Encourage children to participate in a wide range of group activities to enable them to develop their social skills
- Ensure that all staff act as positive role models for children
- Work in partnership with parents by communicating openly
- Praise children and acknowledge their positive actions and attitudes, therefore ensuring that children see that we value and respect them
- Encourage all staff working with children to accept their responsibility for implementing the goals in this policy and are consistent
- Promote non-violence and encourage children to deal with conflict peacefully
- Provide a key person system enabling staff to build a strong and positive relationship with children and their families
- Have a named person who has overall responsibility for issues concerning behaviour.

The named person, for managing behaviour will advise other staff on behaviour issues and along with each room leader will keep up-to-date with legislation and research and support changes to policies and procedures in the nursery; access relevant sources of expertise where required and act as a central information source for all involved; attend regular external training events, and ensure all staff attend relevant in-house or external training for behaviour management. A record will be kept of staff attendance at this training.

We recognise that codes for interacting with other people vary between cultures and staff are required to be aware of this and respect those used by members of the nursery.

Nursery rules are concerned with safety and care and respect for each other. Children who behave inappropriately by physically abusing another child or adult e.g. biting, or through verbal bullying, will be required to talk through these actions and apologise where appropriate. The child who has been upset will be comforted and the adult will confirm that the other child's behaviour is not acceptable. It is important to acknowledge when a child is feeling angry or upset and that it is the behaviour we are rejecting, not the child.

When children behave in unacceptable ways:

- Physical punishment such as smacking or shaking will be neither used nor threatened, however it may be necessary to use restraining action in an emergency to prevent personal injury and protect the safety of other children and staff . This will only take place by staff who have been appropriately trained to do so

- Children will not be singled out or humiliated in any way. Staff within the nursery will re-direct the children towards alternative activities. Discussions with children will take place respecting their level of understanding and maturity
- Staff will not raise their voices in a threatening way
- In any case of misbehaviour, it will always be made clear to the child or children in question, that it is the behaviour and not the child that is unwelcome
- How a particular type of behaviour is handled will depend on the child's age, level of development and the circumstances surrounding the behaviour. It may involve the child being asked to talk and think about what he/she has done. It may also include the child apologising for their actions
- Parents will be informed if their child's behaviour is unkind to others or if their child has been upset. In all cases inappropriate behaviour will be dealt with in the nursery at the time. Parents may be asked to meet with staff to discuss their child's behaviour, so that if there are any difficulties we can work together to ensure consistency between their home and the nursery. In some cases we may request additional advice and support from other professionals, such as an educational psychologist or child guidance counsellors
- Children need to develop non-aggressive strategies to enable them to stand up for themselves so that adults and children listen to them. They need to be given opportunities to release their feelings more creatively
- Confidential records will be kept on any negative behaviour that has taken place. Parents will be informed and asked to read and sign any entries concerning their child
- If a child requires help to develop positive behaviour, every effort will be made to provide for their needs
- Through partnership with parents and formal observations, staff will make every effort to identify any behavioural concerns and the causes of that behaviour. From these observations and discussions an individual behaviour modification plan will be implemented
- In the event where a child's behaviour involves aggressive actions towards other children and staff, for example hitting, kicking etc. the manager should complete risk assessments identifying any potential triggers or warning signs ensuring other children and staff safety at all times. In these instances it may be that the child is removed from that area until they have calmed down and/or restraining techniques are used by trained staff
- Children will be distracted from the negative situation and supported in a different activity or environment, if necessary for their own well-being and that of others in the group.

Anti-Bullying

Children need their own time and space. It is not always appropriate to expect a child to share and it is important to acknowledge children's feelings and to help them understand how others might be feeling.

Children must be encouraged to recognise that bullying, fighting, hurting and discriminatory comments are not acceptable behaviour. We want children to recognise that certain actions are right and that others are wrong.

Bullying takes many forms. It can be physical, verbal or emotional, but it is always a repeated behaviour that makes other people feel uncomfortable or threatened.

Any form of bullying is unacceptable and will be dealt with immediately. At our nursery, staff follow the procedure below to enable them to deal with challenging behaviour:

- Staff are encouraged to ensure that all children feel safe, happy and secure
- Staff are encouraged to recognise that active physical aggression in the early years is part of the child's development and that it should be channelled in a positive way
- Children need to be helped to understand that using aggression to get things is inappropriate and they will be encouraged to resolve problems in other ways

- Our staff are encouraged to adopt a policy of intervention when they think a child is being bullied, however mild or harmless it may seem
- Staff are ready to initiate games and activities with children, when they feel play has become aggressive, both indoors or out
- Any instance of bullying will be discussed fully with the parents of all involved, to look for a consistent resolution to the behaviour
- If any parent has a concern about their child, a member of staff will be available to discuss those concerns. It is only through co-operation that we can ensure our children feel confident and secure in their environment, both at home and in the nursery
- All concerns will be treated in the strictest confidence.

By positively promoting good behaviour, valuing co-operation and a caring attitude we hope to ensure that children will develop as responsible members of society.

Biting Policy

Biting is a common behaviour that some young children go through. This is part of some children's development and can be triggered when they do not yet have the words to communicate their anger, frustration or need. At Little Stepping Stones Day Nurseries we follow our positive behaviour policy to promote positive behaviour at all times.

Strategies to prevent biting include; sensory activities, biting rings, adequate resources and a stimulating exciting environment. However in the event of a child being bitten the following procedure will be followed:

The child who has been bitten will be comforted and checked for any visual injury. First aid will be administered where necessary. An accident form will be completed and the parents may be informed via telephone if deemed appropriate. The bitten area will be continued to be observed for signs of infection.

For confidentiality purposes and possible conflict the name of the child who has bitten will not be disclosed to the parents.

The child who has caused the bite will be told in terms that they understand that biting (the behaviour and not the child) is unkind, and be shown that it makes staff and the child who has been bitten sad. The child will be asked to say sorry if developmentally appropriate or show they are sorry, e.g. through hugging. An incident form will be completed and shared with the parents at the end of the child's session.

If a child continues to bite, observations will be carried out to try to distinguish a cause, e.g. tiredness or frustration. Meetings will be held with the child's parents to develop strategies to prevent the biting behaviour. Parents will be reassured that it is part of a child's development and not made to feel that it is their fault.

In the event of a bite breaking the skin and to reduce the risk of infection from bacteria, prompt treatment may be needed for both the 'biter' and the 'bitten'.

If a child or member of staff sustains a bite wound where the skin has been severely broken they may require urgent medical attention after initial first aid has been carried out.

Where a child may repeatedly bite and/or if they have a particular special educational need or disability that lends itself to increased biting, e.g. in some cases of autism where a child doesn't have the communication skills, the setting will carry out a risk assessment and may recommend immunisation with hepatitis B vaccine for all staff and children.

Complaints & Compliments | EYFS 3.73

Our nursery believes that parents are entitled to expect courtesy and prompt, careful attention to their individual needs and wishes. We hope that at all times you will be happy with the service provided and that you might like to voice your appreciation to the staff concerned.

Complaints will be dealt with professionally and promptly to ensure that any issues arising from these complaints are handled effectively and to ensure the welfare of all children.

In case of a complaint relating to child protection, please refer to the “*Safeguarding Children*” Policy.

We welcome any suggestions from parents on how we can improve our services, and will give prompt and serious attention to any concerns that you may have by following our complaints procedure as outlined below:

Complaints Procedure

Stage 1: If any parent should have cause for complaint or any queries regarding the care or early learning provided by the nursery they should in the first instance take it up with the child's key person or a senior member of staff/room leader.

Stage 2: If the issue remains unresolved or parents feel they have received an unsatisfactory outcome, then these concerns must be presented in writing to the nursery manager. The manager will then investigate the complaint and report back to the parent within five working days. This will be fully documented in the complaints log book and will detail the nature of the complaint and any actions arising from it.

Stage 3: If the matter is still not resolved, a formal meeting will be held between the manager, parent and the senior staff member to ensure that it is dealt with comprehensively. A record of the meeting will be made along with documented actions. All parties present at the meeting will review the accuracy of the record, sign to agree and receive a copy, which will signify the conclusion of the procedure.

Stage 4: If the matter cannot be resolved to their satisfaction, then parents have the right to raise the matter with the Ofsted Care Inspectorate.

Parents are made aware that they can contact the above in all stages of complaints and are given information on how to contact them.

A record of complaints will be kept in the nursery. The record will include the name of the complainant, the nature of the complaint, date and time complaint received, action(s) taken, result of any investigations and any information given to the complainant including a dated response.

Parents will be able to access this record if they wish to, however all personal details relating to any complaint will be stored confidentially and will be only accessible by the parties involved. The Ofsted Care Inspectorate will have access to this record at any time during visits to ensure actions have been met appropriately.

Contact details for the regulator: Ofsted Care Inspectorate 0300 123 3155

Parents will also be informed if the nursery becomes aware that they are going to be inspected and after inspection will provide a copy of the report to parents and/or carers of children attending on a regular basis.
